

TAKE THE **ECO** CHALLENGE

Small Changes - **BIG** Impact

FREE Assembly and Field Trip - Grades 5 and 6!

In partnership with Orange County Waste and Recycling, Discovery Cube offers 5th and 6th graders a fully funded, two-part program that includes a standards-based assembly and a Discovery Cube Field Trip with a bus stipend award.

In-School Assembly

Interactive 50-minute assembly that utilizes handheld keypads to engage students. Each grade specific assembly empowers students to become environmental stewards and learn the impact of organics, waste and recycling.

- NGSS grade specific curriculum
- Students receive a take home booklet to do fun activities with their family!
- "Take it Further" activity to be completed with class at later date.

Discovery Cube Field Trip

The education continues with a two hour field trip to Discovery Cube.

- Students are immersed in learning with the life size exhibits in Eco Challenge and special science demonstration
- Field Trip structure includes exploration time throughout Discovery Cube.
- **Bus stipend included.**
