

WORKING TOGETHER FOR A GREEN OC

We're developing the County's first ever Climate Action Plan (CAP) to lower our carbon footprint as well as to assist our most vulnerable communities and create co-benefits such as:

- greater walking/biking infrastructure
- electrical vehicle (EV) accessibility, and a
- decreased burden to our landfills through reuse and repurpose.

You play an important role in this process, and we need your input!

**We
want to
hear
from
you!**

**Tuesday, June 25, 2024
6:00 - 7:00 pm**

Irvine Heritage Park Library
14361 Yale Avenue
Irvine, CA 92604

Why Participate?

Whether you're a resident, business owner, or employee, your feedback plays a valuable role in how climate reduction measures and sustainable programs will be established and prioritized in the County.

The more feedback we receive, the better we'll be able to enhance local services, improve the air we breathe, and support more environmentally friendly resources in your area.
