# NOTE TO PARENTS AND GUARDIANS

## Green Superheroes Wanted!

The “Take the EcoChallenge” educational activities book teaches children about the environment and what they can do to help keep the Earth clean and green. Each page has a fun activity to learn about the right way to reduce, reuse and recycle our resources. In just three easy steps, your child can become a Green Superhero by making small changes for a big impact. Our planet is calling on YOU to step up to the challenge!

### How to Help:

#### **Step #1: *Work on the Activity Book together***

Help complete or explain any concepts that your child does not understand. Be sure to check out the OC Resources page at the end to see which ones can be part of your everyday efforts to reduce, reuse, recycle.

#### **Step #2: *Visit the EcoChallenge Exhibit at the Discovery Cube OC***

Discovery Cube OC and OC Waste & Recycling partnered to bring an interactive, eco-friendly recycling exhibit to Orange County residents at the Cube. Take the free child admission coupon on the back of this activity book for a hands-on experience that reinforces what you and your child have learned.

#### **Step #3: *Be a Green Superhero Every day!***

Make a commitment to adopt your own earth-friendly practices at home. Make plans to take a compost class, label some recycling bins at home or plan a trip to your closest Household Hazardous Waste Collection Center to drop off items that should be kept out of the trash. Empower the whole family to put eco-friendly practices in place.

#### **Step #4: *Pick Up Quality Compost***

Visit one of our compost locations. Bring home some compost to enhance your yards or gardens. Please visit [OCLandfills.com/compost](http://OCLandfills.com/compost) to schedule an appointment.
